OBJECTIVE

Software Engineer with hands-on experience building and maintaining scalable web applications across frontend and backend technologies. Experienced in designing production-ready features, REST APIs, AI-powered healthcare platforms, multi-tenant SaaS applications, and modern marketing websites. Skilled in collaborating within Agile teams, code reviews, debugging complex systems, and deploying applications using modern cloud platforms. Passionate about writing clean, maintainable code and continuously improving software quality.

COURSES

CS and Programming Courses:

Computer Fundamentals, Object Oriented Programming, Data Structures and Algorithms, Operating System, System Programming, Database Management System

Hardware Courses:

Digital Logic Design, Digital System Design, Computer Organization and Architecture, Digital signal Processing, Signal and Systems, Microprocessor based System Design, Data Communication and Design

Mathematical Courses:

Calculus, Differential Equations, Linear Algebra, Complex Variables, Probability and Statistics, Engineering Economics

PROFESSIONAL EXPERIENCE

Junior Software Engineer

08/2026 – Present

Algorithm

Peshawar, Pakistan

- Developing and maintaining **Outpost**, a multi-tenant SaaS platform for workforce and organizational management.
- Implementing production-ready features across frontend and backend using Tanstack Router, Tanstack Query, Mantine UI, Reactjs, Nodejs, Express, MongoDB.
- Worked on candidate management, hiring workflows, AI-powered features, assessment modules, email communications, and platform administration.
- Investigated and resolved production bugs through debugging, testing, and code reviews.
- Collaborated with cross-functional teams to deliver scalable software following engineering best practices.
- Developed the **RollCall Landing Page**, creating responsive UI components and optimizing user experience.

Software Engineering Intern

04/2026 – 07/2026

Algorithm

Peshawar, Pakistan

- Contributed to the development of **MedLens**, an AI-powered healthcare platform used by clinicians for patient management, encounter workflows, and clinical intelligence.
- Developed frontend features for the MedLens Web Application using React, TypeScript, TanStack Query, Mantine UI, and modern software engineering practices.
- Built and enhanced the **MedLens Marketing Website** using Astro, implementing responsive and SEO-friendly pages.
- Contributed to the redesign and development of the **Algorithm company marketing website** with reusable Astro components and responsive UI.
- Worked closely with senior engineers to debug production issues, improve application performance, and implement new product features.
- Participated in code reviews, Git workflows, Agile development, and deployment processes.

Full Stack Developer

Freelance

- Built and maintained modern web platforms, focusing on performance, usability, and clean design.
- Developed fast, responsive user interfaces using the Astro framework, Tailwind CSS, shadcn/ui, and TanStack Query.
- Handled complete project delivery, from planning and development to testing and deployment, ensuring high-quality client-focused solutions.

09/2025 – Present
Peshawar, Pakistan

Tech Lead - Algorithm Training Program

Algorithm

- Guiding and mentoring junior developers through technical support, code reviews, and development best practices.
- Leading the development of **SkillSwap**, a skill-exchange platform that connects users for learning and collaboration.
- Coordinated feature planning, task management, and technical decision-making across the team.
- Successfully deployed and maintained production applications using **Render** and **Supabase**.
- Working closely with the team to build scalable, maintainable, and user-friendly web solutions.

12/2025 – 04/2026
Peshawar, Pakistan

Backend Developer Intern

Codematics Abbottabad

- Implemented backend services and APIs with **Node.js** and **Express.js**, enabling smooth data flow between frontend and database systems.
- Worked with databases including SQL and MongoDB, performing queries, designing schemas, and managing data efficiently.
- Gained hands-on experience in backend development using PHP (Laravel), building structured and maintainable server-side applications.

07/2025 – 09/2025
Abbottabad, Pakistan

EDUCATION

Mariculation

Jinnah Public School and College Havelian

Completed Matriculation with an **A grade**, demonstrating strong academic performance and dedication.

04/2009 – 04/2021
Havelian, Pakistan

FSc Pre-Engineering

Peace Group of Schools and College, Haripur

Completed FSc with excellent results, showcasing strong academic skills and consistent performance.

05/2021 – 05/2023
Haripur, Pakistan

BSc Computer System Enginnering

University of Engineering and Technology, Peshawar

Pursuing a Bachelor's in Engineering with a current CGPA of **3.9**, maintaining strong academic performance.

09/2023 – Present
Peshawar, Pakistan

LANGUAGES

English

Urdu

INTERESTS

Software Engineering | Web Development | Web Designing | Graphic Designing | IOT | Computing

TECHNICAL SKILLS

Frontend

- Html
- Css
- Javascript
- Typescript
- Reactjs
- Nextjs
- Astro
- TanStack Router
- TanStack Query
- React Hook Form

Programming

Languages

- C/C++
- Python
- OOPs
- VHDL
- Typescript
- JavaScript (ES6+)
- SQL
- PHP

Backend

- Node js
- Express js
- MongoDB
- SQL
- PHP
- Laravel
- Authentication & Authorization
- Multi-tenant Architecture
- Prisma ORM

Hosting

- Netlify
- Vercel
- Render
- Railway
- Neon
- Aiven
- Supabase

Software Engineering

- Software Architecture
- API Design
- Debugging & Troubleshooting
- Code Reviews
- Agile Development
- Git Workflow
- CI/CD
- Technical Documentation
- Feature Development

Databases

- PostgreSQL
- MongoDB
- Supabase
- Neon
- MySQL
- Aiven

Tools

- Vscod
- Postman
- MongoDB Compass
- PostgreSQL
- Git & Github

Libraries

- Tailwind Css
- Bootstrap
- ShadCN
- Mantine UI
- Zod
- Joi

NON-TECHNICAL SKILLS

- Critical approach towards solving problems
- Enhancing productivity and efficiency through automation solutions
- Strong corporate work ethic with a reliable and dependable spirit.
- Highly motivated individual with a strong passion for learning and growth via demonstration of a strong desire to explore new technologies and practices

PROJECTS

Outpost Platform

08/2026 – Present

Enterprise multi-tenant SaaS platform for workforce and organization management. Built hiring workflows, candidate management, AI-powered features, assessment modules, email communications, and administrative tools.

Algorithm Marketing Website

06/2026 – 06/2026

Developed responsive company website sections with reusable Astro components. Improved accessibility and performance.

MedLens Marketing Website

05/2026 – 05/2026

Built responsive, SEO-optimized landing pages using Astro. Improved website performance and component reusability.

MedLens

04/2026 – 05/2026

AI-powered healthcare platform supporting patient management, encounter recording, AI-generated clinical notes, and risk score calculators. Developed frontend modules, API integrations, reusable UI components, and patient workflows.

SKILLSWAP - Skills Exchange Platform

02/2026 – 04/2026

Currently developing SkillSwap, a platform connecting learners and mentors to exchange skills and collaborate efficiently.

EMFIVE Business Services

12/2025 – 01/2026

Created a responsive business website for a Dubai-based company, emphasizing user-friendly design, smooth performance, and a professional digital presence.

HEALERS Institute Care Platform

08/2025 – 10/2025

Contributed in building a User Management System for the Healers Institute for Children with Special Needs, enhancing user organization and accessibility.

OTHER PROJECTS

- Internal Team Communication Platform
- E-Learning Web Application
- Virtual Assistant and Responsive Recepie App
- Music Player,Tic Tac Toe game,To do list App,Travel Agency
- Text to speach Converter
- Soccer Bot
- Automatic Car Parking system
- Platformer game using pygame
- Water Level Indicator
- Cell phone Detector
- Financial management system using c++

CERTIFICATES

- | | | |
|--|--|--|
| • Backend Development (Laravel) certificate by URRAN | • Front-end Web developement certificate by coursera | • Web Developemnt cerficate by webwizard |
| • Front-end web developement bootcamp (10 days) | • Javascript Workshop (3 Days) | • React JS course (10 Days) |

EXTRACURRICULAR ACTIVITIES

- Core team member of MLSA Peshawar (Web)
- Core team member of GDGoC (Web)
- General member of the Computer Society
- General Member Coders Nexus
